Re: MB Docket No. 10-56

June 15, 2010

Dear Chairman Genachowski:

I am contacting you to comment on Comcast's proposed partnership with NBC Universal, which is currently under review by the Commission. As president & CEO of Tri-County Community Action Inc. in Southern New Jersey, I am aware that Comcast has been a great supporter of our efforts to help low-income people in Cumberland, Gloucester and Salem counties.

Tri-County Community Action Partnership is involved in our three-county community through more than 50 programs, including Head Start, Weatherization, Literacy Volunteers, Women, Infants & Children (WIC), affordable housing and economic development, workplace readiness, micro-loan, economic literacy and housing assistance, all of which are in keeping with the agency's mission to provide services that improve the quality of life and promote self-sufficiency.

Comcast, through its support of the agency, has helped thousands of local residents identify and overcome barriers to self-sufficiency. During Comcast Cares Days, Comcast helped us at dozens of sites in the tri-county region. Comcast's support allows the agency to benefit the communities it serves by making them better places to live.

Comcast has also been a strong supporter of our literacy program, helping people overcome one of the biggest barriers to self-sufficiency. Comcast understands the importance of literacy and has made it possible for Tri-County to provide residents with English as a second language courses, remedial reading and tutoring services. Comcast's commitment enabled Tri-County to positively impact the lives and the futures of thousands of people each year.

As you consider Comcast's proposed partnership with NBC Universal, I would hope that you take into account the dedication Comcast has shown to Southern New Jersey's communities.

Sincerely,

  
Albert Kelly  
President & CEO

CC: Commissioner Michael J. Copps  
Commissioner Robert McDowell  
Commissioner Mignon Clyburn  
Commissioner Meredith Attwell Baker
